Portfolio: <https://shubham-dubey-portfolio-data.vercel.app/>

EDUCATION

- Bharati Vidyapeeth Institute of Computer Applications and Management (GGSIPU)** 2024 – Present
Master of Computer Applications
- University of Allahabad** 2019 –2022
Bachelor of Science

PROJECTS

Placement Management Module

SQL, Power BI, Excel, Python (Pandas, NumPy)

- Performed data analysis and EDA on 200+ student records and 20+ company profiles to design a centralized placement system
- Implemented role-based access control reducing unauthorized data exposure by ~30% and shortlisting efficiency by ~40%
- Developed Power BI dashboard to monitor key metrics such as application status and trends

Social Media Sentiment & Brand Intelligence Dashboard

Python (VADER, TextBlob, NLTK, Pandas), SQL, Power BI

- Collected and preprocessed 25,000+ tweets/Reddit posts across 3 brand competitors; cleaned noise (emojis, URLs, hashtags) via regex pipelines.
- Applied VADER & TextBlob for sentiment classification achieving 82% accuracy on 500-record labelled sample; used LDA topic modelling to surface top 10 complaint/praise themes.
- Build Power BI dashboard tracking daily sentiment score, volume spikes, and competitor comparison for real-time brand health monitoring.

Retail Sales Forecasting & Insight Engine

Python (Pandas, Scikit-learn, Prophet), SQL, Power BI, Excel

- Cleaned 50,000+ rows of 3-year retail transactional data; built a Facebook Prophet time-series model achieving MAPE of 6.8% for monthly revenue forecasting.
- Designed Power BI executive dashboard with 8 KPIs (revenue trend, top SKUs, regional heatmap, YoY growth), reducing manual reporting by ~70%.
- Identified top 3 underperforming product categories via cohort analysis — insights translated to a 12% simulated revenue uplift in scenario modelling.

SKILLS

- Programming & Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, Data Cleaning, EDA
- Visualization & BI:** Power BI, MS Excel (Pivot Tables, VLOOKUP)
- Databases:** MS SQL Server, PostgreSQL

CERTIFICATIONS

- Deloitte Data Analytics Job Simulation – Forage (June 2026)
- Tata Group Data Visualisation: Empowering Business with Effective Insights (Forage) – June 2026
- Python Programming Internship – IIT BHU, Varanasi
- O-Level Certification – NIELIT
- Cyber Security: From Beginner to Expert – Udemy

ACHIEVEMENTS

- Core Team Member – INDIACom 2025 (International Conference) | Core Team Member – NSC 2025 | Event POC – Amalgam 2025
- Presented research paper on Big Data-based stock price prediction (Tractate 2025): ML-driven event-trend analysis to improve prediction accuracy
- Presented research paper on Driver Drowsiness Detection at IEEE DELCON 2025: multimodal computer vision system for road safety
